

OUR SERVICES

We provide community support to adults, children and adolescents with mental health/substance abuse (MH/SA). This support service consists of MH/SA rehabilitation services and supports necessary to assist the person in achieving and maintaining rehabilitative, sobriety, and recovery goals.

These services are designed to meet the MH/SA treatment, financial, social, behavioral/emotional and other treatment needs of the recipient. We, at AMCH, strive to assist the recipient in acquiring MH/SA recovery skills, social skills and adaptive skills, necessary to successfully address his/her educational, vocational, emotional, behavioral and housing needs.

Our skilled professionals provide coordination of movement across levels of care, directly to the person and their family. We also coordinate discharge planning and community re-entry following hospitalization, residential services, and other levels of care.

We provide "first responder" crisis response on a 24/7/365 basis to consumers experiencing a crisis.

Community support includes case management to arrange, link or integrate multiple services. Community Support workers provide advocacy and inform the recipient about benefits, community resources and services. We provide assessments for new or existing services in order to meet the recipient's needs.

OUR VISION

AMCH, Inc. is guided by the values of community, commitment, and compassion. We believe in providing services that are respectful, dignified and person-centered.

Our community is our top priority. Because we live, work, and play here, we embrace the demands and challenges that the people of this region face. It is our duty to build a network of quality services using the guidance we receive from consumers, their families, advocacy groups and the community.

We are committed to our consumers, our staff, and our partners. We are dedicated to improving quality of care, accessibility, and collaborative relationships within our area and beyond. We understand the importance of timely and fiscally responsible services.

We demonstrate our compassion by ensuring that consumers and families who seek services are treated ethically, professionally, with the highest degree of dignity and respect. We believe consumers receiving mental health or substance abuse services should be empowered, encouraged and assisted in order to achieve their full potential.

OUR MISSION

At AMCH, Inc. we strive to make a positive difference in the lives of our consumers while leading them toward independence.

Did You Know . . .

- More than 54 million Americans have a mental disorder in any given year, although fewer than 7 million seek treatment.
- Depression and anxiety disorders - the two most common mental illnesses - each affect 19 million American adults annually.
- Approximately 12 million women in the United States experience depression every year - roughly twice the rate of men.
- Depression greatly increases the risk of developing heart disease. People with depression are four times more likely to have a heart attack than those with no history of depression.
- Bipolar disorder, also known as manic-depressive illness, affects more than 2 million Americans.
- One in five children has a diagnosable mental, emotional or behavioral disorder. Up to one in 10 may suffer from a serious emotional disturbance. Seventy percent of children, however, do not receive mental health services.

AMCH, Inc. is endorsed by Pathways LME and enrolled with the Division of Medical Assistance as a Medicaid provider.

Our staff has credentials including QMHP (Qualified Mental Health Professional), QDDP (Qualified Developmental Disabilities Professional), Paraprofessional, and Administrative.
